

# Guides

EasyDay programs are facilitated and guided by highly trained individuals from various cultural and professional backgrounds. Our guides have worked and lived all over Europe. They match profound academic training, ranging from Corporate Social Responsibility (CSR) to Psychology, Philosophy, Ecology and Molecular Biology, with experience as professional outdoor educators, sailors, climbers, and mountaineers.

We are united by a passion for our work and a deep commitment to sustainable development. Our vision is to create a world future generations want to inherit and we see the natural environment as our greatest partner in this quest.

*"Never believe that a group of committed citizens can't change the world. In fact it was only those committed people who ever did."* Margret Mead
