

Safety & Risk Management

Active Earth Training Ltd. and EasyDay courses are based outdoors. Adventure activities present an inherent risk of accident. Under these circumstances, the physical and emotional safety of clients and guides is of utmost importance. To guarantee maximum safety, ActiveEarth adheres to a strict Safety and Risk Management (SRM) policy. Our SRM policy is an integrated framework of multiple risk assessments that promotes flexibility and reappraisal. The policy is adapted to the varied requirements associated with our work ensuring your overall well-being.

Insurance

Active Earth Training Ltd. and EasyDay are covered by comprehensive public liability insurance. It is a precondition of booking that clients are insured against medical and personal accident risks. This must cover the activities involved in the course and include repatriation costs, air ambulance and helicopter rescue services, cancellation and curtailment.

Environmental Protection

Protecting and conserving the ecosystems in which we work and interact is of utmost importance to us. ActiveEarth therefore delivers programs in-line with a strict Environmental Protection Policy (EPP).
