

Travel & Logistics

All logistics, including travel, accommodation and food are organised by our in-house travel agency ActiveEarth Travel. This bespoke service is based upon clear guidelines:

- We try to keep the ecological footprint of travel as low as possible
- We use locally-owned accommodation
- Food is fresh, healthy, fairly traded and organically produced wherever possible

ActiveEarth Travel is a specialist travel services provider which guarantees its customers 100% financial protection through its membership of the Travel Trust Association.

A representative from ActiveEarth Travel will work with you personally to ensure that all your travel and accommodation needs are met.
